"Climax Jim" a rather odd genius who for the past few years has spent a large portion of his time in the various county jails in this territory, has reformed, says the St. John's Herald. Work will be started on the railroad from Nogales to Washington camp, a distance of thirty miles. At last the boundary line between Utah and Arizona is to be definitely located by the government. The contract for surveying has already been let and the surveyors are running the preliminary line. As soon as this is completed the work of running the permanent line will be begun and it will be marked by iron monuments as it is located. A survey through that rough country will be no easy matter as it will require months to run the line over the three hundred miles of boundary between the state and territory.

"With Red Backs, 25 Cents."

The following is from the Tucson Citizen:

Clergymen are frequently the victims of blunders. A short time ago a domine was anxious to introduce a new hymnal in his church and he directed his assistant to call attention to the books after the sermon was delivered. But the assistant thought he would first call the attention of the congregation to the instruction of the pastor in reference to the baptism of infants. So at the close of the sermon he stepped forward and announced:

"All those who have children and wish them baptized, will please send in their names at once."

The pastor, who was hard of hearing, thinking that the assistant had spoken in regard to the books, came forward and said:

"And those who haven't any can obtain them from me at any time between 2 and 3 o'clock; the ordinary ones at fifteen cents, and the special ones with red backs at twenty-five cents."
